

Canvastic • Net!

Canvastic! Dot NET! Write, Draw, Publish, Online for K-3, is the new K-3 online version of the popular desktop application for student publishing, Canvastic Version 3.5.

Canvastic dot NET (that is its address on the web: <http://canvastic.net>) is a super simple choice for publishing with primary students. There is literally nothing to install, nothing to teach or learn. Sign in and instantly start drawing, writing and addressing curriculum standards.

Why is Canvastic the best choice to be your Page Creation Tool for Primary Students?

Publishing the student's content for print or the screen is natural. Canvastic utilizes easy to understand tools and options with a clear, clean interface. Industry standard tools prepare students for professional applications. Canvastic Dot NET was created to put the ease of publishing on any computer anywhere.

Canvastic is clear, clean, easy, and businesslike. It doesn't waste the users time and it doesn't waste the teacher's time. There are not "toys" or distracting entertainment features, just a really simple way for students to write and add graphics to their page.

Use Canvastic to create:

Books, flyers, reports, diagrams, graphs, art, animations, greeting cards, designs, drawings, maps, letters, poems, posters, stories, and more.

For Primary Students:

Canvastic Dot NET is a primary student product. It has a simple set of tools (a brush, straight line and simple shapes) that are just what young students need to succeed in publishing projects.

Who uses Canvastic?

Students and teachers are authors and publishers. In order to meet the district and state standards, they must often write, graphically show and present information to many different groups and in many different ways. They write stories, sentences, descriptions, and reports. They draw depictions, maps, diagrams and graphs.

Students that use Canvastic learn:

- Word Processing Skills
- Digital Graphics Skills
- Principles of Design and Page Layout
- To Express their Creativity in Published Documents
- To Integrate any Curriculum into the Publishing Process
- To Save their Work to Common File Formats for Sharing

Runs on any Internet connected computer, & designed to meet budget needs

Available as an annual subscription, Canvastic DOT Net fits neatly into school budgets and needs, eliminating high acquisition costs of full purchase. And since Canvastic DOT Net runs in any browser that supports the Flash plugin from Adobe, continued compatibility is ensured, as schools upgrade computers.

Files are compatible with your other applications

Canvastic Dot NET downloads its files as jpegs to your computer's desktop. They can be used and edited in many other applications.

Canvastic dot NET is compatible with Netbooks!

Because of the smaller monitor resolution on these small computers you can enhance your experience by hiding all the toolbars in your browser window. This works a bit differently on different systems but is generally under the View Menu. Canvastic recommends hiding the toolbars, status bars, bookmark bars etc. to free up more screen space. Some browsers may work better than others on your computer.
