

Bilingual Elementary Learning Games

For Windows XP & Vista
and Mac OS 9 & OS X

Spelling Bugs (in English and Spanish)

Spelling and Vocabulary

Spelling Bugs is wacky fun that makes spelling and vocabulary as easy as it gets. Game 1 is a spelling game with letters on leaves, and a hungry caterpillar that you help turn into a stylish butterfly. Game 2 is a vocabulary game with celebrating spiders, complete with party hats and confetti. Both games have a virtual reward structure that will make you want to play for hours on end. With thousands of words and definitions ranging from the most basic to really challenging, elementary school children of all ages will love this CD. This disc also contains our Teacher's Edition features, including a teacher's guideline plus automatic tracking to record a child's learning.

Superheroes Math Challenge (in English and Spanish)

Math

Test your skills at the Superhero Training Grounds. Choose your superhero, and your mission location, and then use your brainpower to guide your way to victory. Learn more about the superheroes by visiting their hall of fame. This game has 50 levels of difficulty ranging from the most basic addition and subtraction all the way up to algebra. In addition, this game includes an extensive learning area to help anyone advance through the levels, plus it contains our trademark Teachers Edition features, including a teacher's guideline plus automatic tracking to record a child's learning.

Intergalactic Rocket Factory (in English and Spanish)

Science

With *Intergalactic Rocket Factory*, children can build their own virtual rockets and learn fascinating facts about the universe. Select from several types of rocket designs, and then obtain parts for automatic virtual factory assembly based on correct answers to questions about our solar system, our galaxy, and beyond. Customize your rocket with your choice of color, stickers, and more. After you have completed a rocket, you can conduct a virtual launch and watch the spaceship blast off of your screen! Save your rockets and launch them anytime you like. This CD also includes our trademark Teacher's Edition features, including a teacher's guideline plus automatic tracking to record a child's learning.

The Mammoth Food Dig (in English and Spanish)

Nutrition

Join the esteemed Professor Eggword on his archaeological expedition, and learn everything you ever wanted to know about food and nutrition, plus mathematical calculations and unit conversions. By playing this game, children will learn a surprising amount about the foods they eat, including information about Calories, fat, vitamins, minerals, and much more. This game contains our trademark Teacher's Edition features, including a teacher's guideline plus automatic tracking to record a child's learning.

Terrific Scientific Critterator (in English and Spanish)

Science

Terrific Scientific Critterator is a fun science game for elementary school children. Children get to create a vast array of strange virtual creatures (Critters) and then assemble them into a Critter Choir—and in the process they learn everything from astronomy to chemistry and general science. In addition to the Critter Choir, there's a puzzle area where children have an opportunity to test their skill, patience, and brain power. This CD also contains our Teacher's Edition features, including a teacher's guideline plus automatic tracking to record a child's learning.
